## **PROFESSIONAL OBJECTIVE:**

Ambitious individual with well-honed skills in Information Technology (IT) and technical expertise in the support of specialized programming projects using web based and client server tools, with ability to follow established procedures and work under little or no supervision. Looking for an opportunity to help in broadening and enhancing my current skill and knowledge.

## **EDUCATION:**

2017 – 2021: Bachelor of Science in Information Technology  
Masinde Muliro University of Science and Technology (Main Campus),  
Kakamega

2013 – 2016 Naathu High School

2009 – 2013 Muromutua Primary School

2003 – 2009 – Naathu Primary School

## **DESCRIPTION:**

I'm a final year student in Masinde Muliro University of Science and Technology, pursuing Bachelor of Science in Information Technology. I have skills in Web Development and Design, conversant with languages such as PHP, JavaScript, HTML, CSS and SQL, Bootstrap and jQuery libraries. I also have basic skills in Java, C and C++ programming languages, taught in class in my first year of study at the university. I have also explored Python and its Machine Learning capabilities. I have acquired some basic skills in Laravel after completing my first project in the same. Web development remains my main focus.

## **SKILLS:**

Hands-on experience in developing codes for software applications,  
Sound knowledge of PHP, JavaScript, jQuery, HTML, CSS and SQL, and  
Familiarity with database design, development and optimization.  
Help-Desk Skills, and computer cleaning and optimization.

## **LANGUAGES:**

English – Fluent  
Kiswahili - Fluent

## **PROJECTS:**

Completed a three months industrial training which involved Design and implementation of databases, Router and Switch configuration, Help-Desk: Disassembling and assembling of computers, and Computer Cleaning and Optimization.

### **Other Projects:**

Third Year Project – Web Based Hospital Management System with support of Video Calls

Fourth Year Project - An Expert Diagnosis System for Common Illnesses,

Completed several web projects, both Web apps and Websites.
